My school is closed.

Social story
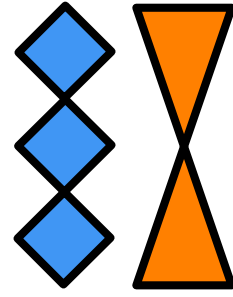

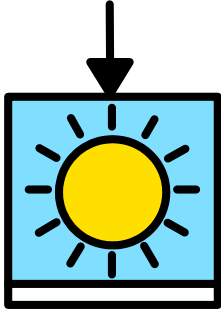

Today   is   different
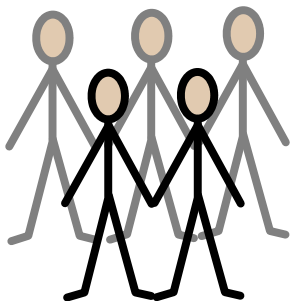

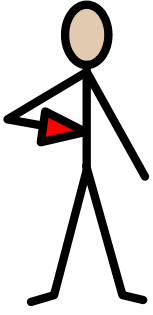

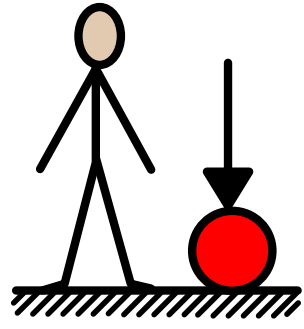

because   my   school

is   closed.
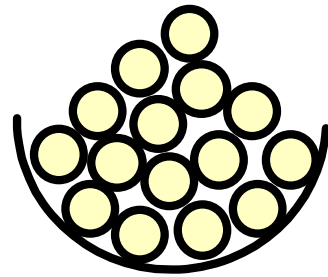

My school is closed

because a lot of

people are poorly.

I   might   stay

home   for   many

days.
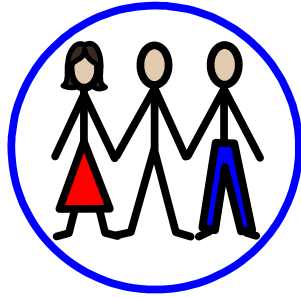

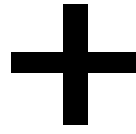

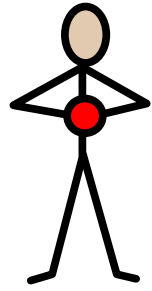

My family and my
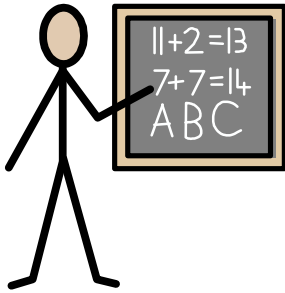

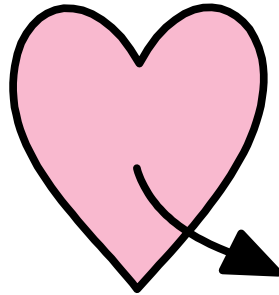

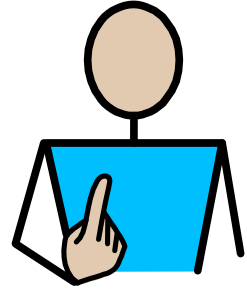

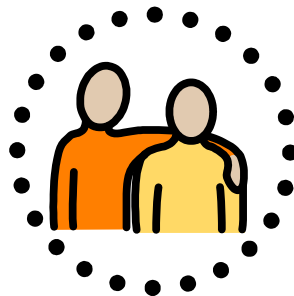

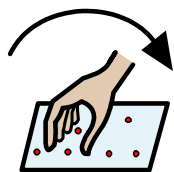

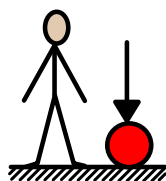

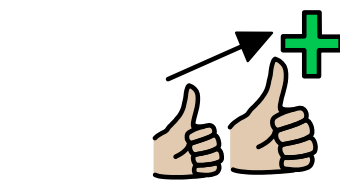

teachers want me
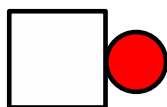

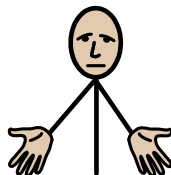

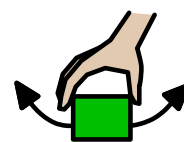

to be safe.

I can try and stay as healthy

as possible by washing my hands

when I need to and using

my tissue if I cough or sneeze.
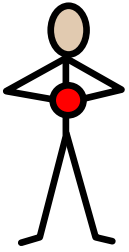

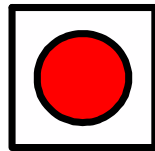

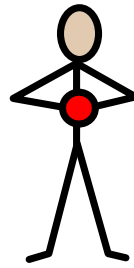

My parents will tell

me if I am going to
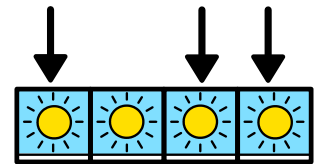

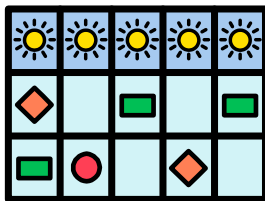

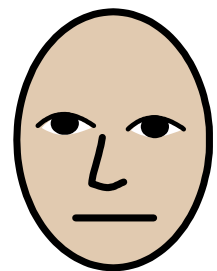

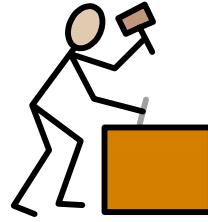

school or if it is closed.
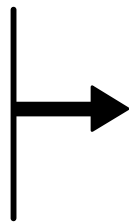

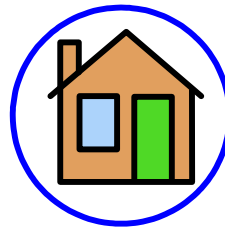

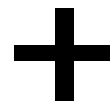

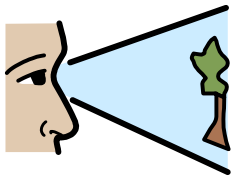

Time off school is a

change in my usual

schedule but it is ok.

It means I can do school

work from home and

see my favourite toys.
