Please note: this plan has been created in line with the latest government advice regarding contingency planning as set out in the DfE's '[Contingency framework: education and childcare settings](#)' and '[Schools COVID-19 operational guidance](#)' documents. The government has made it a national priority that education and childcare settings should continue to stay open as much as possible during the coronavirus (COVID-19) pandemic. Any restrictions on education would only be as a last resort and should only be initiated following a ministerial decision on a case-by-case basis.

We have confirmed with the DfE that the 'outbreak management plan' that schools should have in place, according to DfE guidance, is the same as the contingency plan. We have used the phrase 'contingency plan' throughout.

The aim of this plan

If our school or local area sees an extremely high prevalence of coronavirus (COVID-19) infection rates and existing measures in our community have failed to reduce this, the appropriate authorities will decide which additional measures to implement to help contain the spread. These measures may involve implementing a number of restrictions, which could include the partial closure of schools and childcare settings in our area. Measures may also be necessary to help minimise the impact from new coronavirus variants.

This contingency plan, also known as an 'outbreak management plan', outlines how the school will operate if further restrictions are implemented. The school will work closely with the local health protection team (HPT) and implement provisions as advised by the team.

This is a live document that will be reviewed by the headteacher, in conjunction with other key stakeholders, as and when the situation develops.

Restrictions to attendance

The government has advised that all schools should continue to operate as normal and that all pupils should attend school unless required to self-isolate.

The contingency framework is designed to act as a containment measure where:

- There is extremely high prevalence of coronavirus.
- Other measures have already been implemented.
- There is a need to minimise the impact from a new coronavirus variant.

Restrictive attendance measures, of the kind set out in the contingency framework, must not be implemented by schools without the explicit agreement of the DfE.

Restricting attendance in any form will only be used as a last resort, initiated following a ministerial decision. Where restrictions to attendance are implemented following government advice, they will be kept to a minimum, allowing for the maximum number of pupils to attend education; however, in all circumstances, priority will be given to vulnerable pupils and the children of critical workers to attend full time.

As part of their outbreak management responsibilities, LAs, Directors of Public Health, and HPTs may advise individual settings or a cluster of closely linked settings to limit attendance in one of the ways described in this section.

Where LAs judge that wider containment action is needed and wish to limit attendance within an area, they will work with their Regional Partnership Team to escalate a proposal to the central Local Action Committee command structure.

Early years settings

If the contingency framework is implemented, the setting will continue to allow all children to attend on-site provision. Where advised by the DfE, in line with the available evidence, the setting will only allow the on-site attendance of vulnerable children and the children of critical workers. The setting will only limit attendance if it is directed to do so by the DfE. If attendance is limited, remote learning will be delivered to children who remain at home.

Special schools, special post-16 settings

If the contingency framework is implemented, all pupils will continue to attend on-site provision. Where attendance is mandatory, pupils will attend according to their usual timetable. Where attendance is not mandatory, the school will continue to welcome pupils to attend full-time. In exceptional circumstances where the school is unable to provide its usual provision and interventions with adequate staffing ratios, the DfE has advised that the school continues to deliver specified provision as close to normal as practicable, as soon as possible.

High-quality remote education will be provided for all pupils not in attendance, in line with the Pupil Remote Learning Policy.

The school will lift restrictions as soon as it is advised by the government that it is appropriate to do so.

Infection prevention and control

The school's Infection Control Procedures and protocols as outlined will continue to be adhered to – this meets the requirements set out in the DfE's system of controls.

Any member of the school community who displays symptoms of coronavirus will be required to self-isolate and encouraged to get a confirmatory polymerase chain reaction (PCR) test. Tests can be booked online or ordered by telephone via NHS 119. Critical workers, including school staff, have priority access to testing.

All schools are currently being provided with rapid-result lateral flow device (LFD) testing kits, which include PPE, to identify asymptomatic cases of coronavirus.

If a variant of coronavirus classed as a variant of concern (VoC) is identified within the school's geographical area, the school will partake in targeted testing by the Department of Health and Social Care (DHSC) to help suppress and control any possible new cases. The school will also adhere to advice from Directors of Public Health in relation to the temporary reintroduction of face coverings.

The school will encourage staff and pupils to increase their use of home testing if advised accordingly by the relevant authorities, e.g. Directors of Public Health.

If a pupil develops symptoms of coronavirus while on site, they will be taken to a designated isolation area while they wait to be collected. If required, the pupil will be supervised while they await collection. If the supervising member of staff is unable to socially distance, e.g. due to the pupil's age or needs, they will wear PPE.

After the pupil has left the premises, any areas they were in will be cleaned. The pupil's parents will be encouraged to get their child tested with a confirmatory PCR test as soon as possible. The pupil will be required to self-isolate for at least 10 days – remote education will be arranged for them immediately.

If a staff member develops symptoms while on site, they will be directed to go home immediately to self-isolate and to get a PCR test. Cover arrangements will be put in place.

Any staff members or pupils who have been in close contact with a symptomatic individual at school will not need to self-isolate unless they develop symptoms themselves. From 16 August, fully vaccinated adults, and pupils under the age of 18 who have been identified as close contacts of a positive case via the NHS Test and Trace service will not need to self-isolate unless advised by a healthcare professional.

Adults who receive their second dose of the vaccine close to 16 August will need to continue to follow the same rules as unvaccinated adults until two weeks after their second dose. Unvaccinated adults and adults who have only had one dose of the vaccine will need to continue to follow the rules on self-isolation if they have been identified as a close contact of a positive case.

Those aged 18 will continue to follow the same rules as under-18s until four months after their 18th birthday, when they will begin to follow the self-isolation rules for adults.

If an individual tests positive, the school will contact the DfE Helpline on 0800 046 8687 and select Option 1, where a team of NHS advisers will decide, what action is needed based on the latest public health advice. The school will follow the expert advice, which could include working with the local HPT if the situation is escalated by the advisers.

The individual's close contacts at school – where they do not fulfil the criteria outlined in this section of the contingency plan from 16 August – will be sent home to self-isolate for 10 days and encouraged to get a PCR test. If more individuals test positive, the school will follow advice from the local HPT, which may include requiring more people to self-isolate.

Early years settings and primary schools

As the result of an outbreak during step 4 of the coronavirus recovery roadmap, a temporary requirement could be implemented for staff to resume wearing face coverings. This may include face coverings being reintroduced in communal areas and classrooms for members of staff. The school may also be required to reintroduce the use of bubbles in order to resume social distancing and limit the transmission of coronavirus. The school will adhere to any conditions set out by the local HPT.

Secondary schools and post-16 settings

As the result of an outbreak during step 4 of the coronavirus recovery roadmap, a temporary requirement could be implemented for face coverings to be worn again in settings around the area of the outbreak. This may include face coverings being reintroduced in communal areas and classrooms (for both pupils and staff). The school may also be required to reintroduce the use of bubbles in order to resume social distancing and limit the transmission of coronavirus. The school will adhere to any conditions set out by the local HPT.

Early years settings

The setting will notify Ofsted of any confirmed cases, within 14 days, be that a child or staff member, in the setting through the usual notification channels. We will also make Ofsted aware if the setting is advised to close as a result.

If, after 31 August, the setting is subject to any government-imposed restrictions or requirements relating to coronavirus, the '[Early years foundation stage: coronavirus disapplications](#)' can no longer be applied as the necessary conditions will not be met. The disapplications can be applied until 31 August, where deemed appropriate and necessary by the headteacher.

Transport

Pupils and staff attending school will be encouraged to walk or cycle wherever possible and to avoid public transport. If pupils and staff need to use public transport, they will not be required to wear a face covering while travelling unless enforced locally by a Director of Public Health.

If directed, pupils and staff may also need to resume wearing face coverings on dedicated school transport unless they are exempt in line with government guidance, e.g. due to a disability.

Transport services to and from the school will continue to operate as normal during times of local restriction where pupils are still attending. In the event that such services are not able to operate as normal, the headteacher will consider alternative options and communicate these to all parents and pupils in advance.

Teaching and learning

If restrictions to on-site education are required, the school will offer immediate access to high-quality remote education for all pupils who are required to remain at home.

Where advised during a local outbreak, further restrictions may be enforced with regards to certain musical and drama activities, e.g. singing, for pupils attending on-site provision, to help reduce the risk of transmitting coronavirus via aerosols. Restrictions may also be reintroduced to contact and indoor sports. The school will follow the advice provided by the local HPT.

Teachers will ensure lessons are suitable to the class group's age and ability, inclusive for all pupils, and will be adapted, where necessary, to account for the needs of disadvantaged pupils and pupils with SEND.

In exceptional circumstances, the school may reduce its curriculum offering to enable pupils to cope with the workload – the headteacher will assess this need, keeping pupils' best interests in mind, and will not take the decision lightly.

The school will only discontinue subjects for pupils in Years 12 and 13 in rare and exceptional circumstances, as removing subjects from this curriculum is likely to significantly limit choices for further study and employment.

The school will utilise the support available through the DfE's ['Get help with technology during coronavirus \(COVID-19\)'](#) scheme. Under the scheme, the school can order laptops, tablets and 4G wireless routers to support the following groups of pupils if they do not have access to a digital device or the internet through other means:

- Pupils in Years 3 to 13
- Clinically extremely vulnerable pupils across all year groups who are not attending school in line with government and/or clinical advice
- Pupils in all year groups whilst attending school on a hospital site
- Pupils in any year group who have been advised to shield because they, or somebody they live with, are clinically extremely vulnerable
- Students aged 16 to 19 whose place in further education is publicly funded
- Students over the age of 19 with an EHC plan whose place in further education is publicly funded

Before distributing devices, the school will ensure:

- The devices are set up to access remote education.
- Appropriate safeguarding controls and support are in place to help pupils and their families use the devices safely.
- Arrangements follow the procedures outlined in the school's Loaning School Equipment Policy.

Once devices are ready for collection, the school will either arrange for them to be collected by families from school or delivered to pupils' homes, ensuring infection control measures are adhered to as part of this process.

Returning to school

The headteacher will work with the LA to ensure pupils only return to school when it is safe for them to do so. Prior to the return of more pupils and staff, all relevant risk assessments will be reviewed.

Early years settings, primary, Secondary schools and post-16 settings

Where advised to do so by a Director of Public Health and/or the local HPT, the school may encourage staff to undertake LFD tests at home prior to their return to school and/or for a period of time following their return. The school will continue to recognise that testing is voluntary.

The headteacher will inform staff, pupils and parents, prior to the return to school, whether any further restrictions, such as the use of bubbles and face coverings, have been resumed.

After a period of self-isolation, or the relaxation of restrictions, the headteacher will inform parents when their child will return to school.

The headteacher will listen to all concerns that parents may have about their child returning to school and will advise them of the measures in place to ensure the safety of their child.

Exams and assessments

The school will remain open for any exams and assessments planned in line with current government guidance.

Wherever necessary, the school will implement additional mitigations to ensure the safe delivery of exams and assessments, which may include:

- Wearing face coverings in communal areas, where directed.
- Two-metre spacing between all desks, where directed.
- Additional controls for candidates who are classed as clinically extremely vulnerable. This may include measures such as seating them in a separate room to other candidates or, in exceptional circumstances, at the candidate's home.

Safeguarding

Ensuring safeguarding arrangements remain effective during periods of restricted attendance is a key priority. Our Child Protection and Safeguarding Policy will continue to follow these procedures for pupils who remain at home, where appropriate, until all pupils are able to return to school.

We will continue to ensure that:

- The best interests of pupils always come first.
- If anyone in the school has a safeguarding concern about a pupil, they act immediately.

- A DSL or deputy DSL is always available.
- Unsuitable individuals are not permitted to work with pupils or come into contact with pupils whilst on site.
- Pupils who remain at home are protected when they are online.

A trained DSL or deputy will remain on-site where possible. Where this is not possible, e.g. they are required to self-isolate, the school will ensure that the DSL or deputy, or a DSL or deputy from another school, are available to contact at all times. In addition, the headteacher will take responsibility for coordinating safeguarding on-site during this time.

Wraparound care

The school's wraparound care (both indoor and outdoor provision) will be provided to all pupils; however, where restrictions are required, wraparound care will only be provided on-site to pupils who are eligible to attend school full time.

Food provision

We will provide meal options for pupils who are attending school.

We will provide FSM or food vouchers to eligible pupils who are not attending school, where they:

- Are self-isolating.
- Have had symptoms or have tested positive.
- Are not attending due to the implementation of local restrictions advised by the government.

Communication

The school will communicate its plan for addressing any imposed restrictions with parents, including in relation to:

- Opening arrangements.
- Access for specific targeted groups where applicable, such as certain pathways, vulnerable pupils and children of critical workers.
- Any reviews of the school's protective measures as part of our risk assessments.
- The arrangements for remote working.

All relevant stakeholders will be kept up-to-date with the circumstances of any imposed restrictions and how these affect the school as the situation develops.

If any member of the school community wishes to discuss any concerns relating to the school's provision during this period, they should contact the following as appropriate:

- Staff – their line manager
- Pupils – their class teacher or member of pastoral staff
- Parents – in the first instance, class teacher, pathway lead

Monitoring and review

This plan will be reviewed continually, by the headteacher, in line with guidance from the government and Public Health England (PHE).

Any changes to the plan will be communicated to all relevant stakeholders as soon as possible.
